PROFESSIONAL EXPERIENCE

LexiConn Content Services Pvt Ltd

Mar 2022–Present

Content Associate — Acting Team Lead & Content Strategist · Remote, India · Content Strategy & AI Content Operations

- Own blog, landing page, and multi-format content initiatives across 15+ accounts, from search-intent briefs, customer-journey mapping, and editorial planning through publishing, optimization, and measurement of rankings, organic traffic, and conversion outcomes.
- Produce 15–20 SEO-optimized articles and 5+ long-form assets per month across B2B SaaS, fintech, BFSI, payments, and enterprise technology programs while managing concurrent workflows and deadlines.
- Designed and shipped an AI-assisted content QC workflow using a local LLM backend; adopted by 19 team members agency-wide, reduced revision rounds by approximately 40–50%, and was internally productized as Auditor Pro by LexiConn AI.
- Review, fact-check, and refine AI-generated content before publishing; improve prompts and editorial QA processes to maintain accuracy, readability, brief compliance, and brand standards while increasing production efficiency.
- Structure content for generative search and answer engines using GEO, FAQ architecture, AEO, and E-E-A-T signals across live B2B SaaS, fintech, and financial-services programs.
- Conduct content audits, search-intent restructuring, keyword research, content-gap analysis, and competitor research, contributing to roughly 2× organic traffic growth on banking and insurance initiatives.
- Set editorial governance and review standards across 15+ accounts; served as Acting Team Lead from Feb–Aug 2025, coordinating 3 writers and 1 graphic designer across allocation, reviews, feedback cycles, deadlines, and client handoffs.
- Owned product marketing content for a four-product AI suite during the company's AI pivot and collaborated with SEO, product, design, development, and client-facing stakeholders on content delivery.

Matrix Tech Solutions Pvt Ltd

Sep 2019–Jan 2022

Content Writer & UI/UX Copywriter · Kolkata, India

- Produced research-intensive whitepapers, eBooks, case studies, website content, and product copy for software and SaaS clients across the US, UK, and Middle East on a weekly cadence.
- Created website, product, and UI/UX content for Jupiter Money, Keka HR, and Paperflite, translating product information into clear customer journeys and business- and user-facing copy.
- Wrote UX microcopy for enterprise products, with 60–70% of Figma-based recommendations implemented.
- Delivered 300+ enterprise communications for global technology and services clients while maintaining brand voice, editorial quality, and consistency across concurrent accounts.

Self-Employed

2016–2019

Freelance Copywriter · Remote

- Delivered web, marketing, editorial, and promotional copy for SME, startup, and digital clients while completing undergraduate studies.
-

SELECTED PROJECTS

[Auditor Pro — AI-Assisted Content QC Workflow](#) — Qwen 3.5 · Ollama · Python · GitHub

- Built a workflow that ingests briefs and reference documents, audits drafts against editorial, SEO, and brand requirements, and returns structured feedback before human review; adopted by 19 team members and reduced revision rounds by approximately 40–50%.

[Content Pipeline Tracker](#) — *React · Node.js · PostgreSQL · Prisma · JWT · Vercel*

- Built a full-stack application for multi-client content operations with authentication, article management, status tracking, search and filtering, reporting, deadline warnings, and administrative controls.

SELECTED OUTCOMES

- [Worldline developer guide](#): ranks organically and is cited among Google AI Overview sources for “payment gateway API guide India.”
- [Marezi appointment-booking landing page](#): ranks #1 for “Appointment Booking System in Africa.”
- [Mastertrust MasterSwift product page](#): SEO-led copy for a regulated financial-services platform, balancing product clarity, compliance considerations, and conversion intent.
