AI Content Strategist | Product Copy, Enterprise Communications & AI Workflows

titash9sinha@gmail.com | [linkedin.com/in/titashsinha13](https://www.linkedin.com/in/titashsinha13) | West Bengal, India (Remote) | (+91) 9709 659 565

Portfolio:  Titash_Sinha_Portfolio

PROFESSIONAL SUMMARY

AI content strategist with 6+ years delivering product copy, enterprise communications, and content operations across fintech, SaaS, BFSI, and technology organisations. Experience includes UX microcopy, website copy, executive communications, editorial ownership, social media, and AI workflow development and deployment, with responsibility for cross-functional delivery across multiple concurrent client accounts. Designed and deployed a production AI content quality system integrating LLM-based brief analysis, automated review, and structured feedback generation — addressing the scale-versus-quality problem at the team level.

CORE COMPETENCIES

Content Strategy & Planning · Content Audits & Performance Analysis · Product Copy & UX Microcopy · Enterprise Communications

Editorial Leadership · AI Powered Content Operations & Workflow Design · AI Tool Development & Deployment · Prompt Engineering & Context Design · AI-Assisted Content Operations & Workflow Modernisation · B2B SaaS & BFSI

TOOLS & PLATFORMS

Content & AI: Claude, ChatGPT, Cursor, Gemini

SEO & Keyword Tools: Google Keyword Planner, Google Trends, AnswerThePublic, Keyword Surfer

Design Collaboration: Figma (UX copy review, annotations, and microcopy collaboration)

Workflow & Deployment: GitHub, Railway, Vercel

PROFESSIONAL EXPERIENCE

Content Associate | LexiConn Content Services Pvt Ltd *Mar 2022 – Present · Remote*

Scope included content strategy ownership, editorial leadership, and AI workflow development responsibilities.

Acting Team Lead · Feb 2025 – Aug 2025

- Stepped in as acting TL for six months — managed 3 writers and 1 graphic designer, overseeing brief assignments, draft reviews, feedback cycles, and all client handoffs.
- Maintained output quality and delivery timelines across concurrent accounts with no disruption during the transition period.

UX Writing, Microcopy & Website Copy — HDFC, FutureGenerali, Marezi, Credit Saison India

- Delivered Figma-based microcopy for HDFC, FutureGenerali, and Klenty — achieved a 60-70% implementation rate across button labels, empty states, tooltips, error messages, and onboarding flows.
- Covered mobile app UX, AI chatbot conversational flows, and SMS microcopy across fintech and insurtech products, working within client wireframes from brief to developer handoff.
- Wrote full website copy for FutureGenerali, Marezi, Credit Saison India digital product, maintaining brand voice and user journey coherence across a regulated financial services context.

Enterprise & Internal Communications — Micron India, Hexaware, Sakon

- Delivered 300+ enterprise employee communications for Micron India and Hexaware — leaders' notes, mailers, site banners, newsletters, and podcast scripts — achieving a 30% improvement in measured employee engagement.

- Maintained executive voice and brand tone across multiple senior leader profiles, adapting style for all-employee, manager-level, and executive audience segments.
- Retained concurrently by Sakon's HR team for ongoing enterprise internal communications — leader's notes, team updates, and HR communications — delivered as an independent freelance retainer alongside full-time employment.
- Managed editorial calendar and delivery workflow for enterprise comms accounts, aligned to business milestones, HR cycles, and leadership priorities.

Content Strategy & Operations

- Produced research reports and whitepapers for Kantar across investor education, securities awareness, and financial behaviour verticals — 2,000 to 4,700 words per report.
- Produced SEO-optimised content across B2B SaaS, BFSI, and B2C verticals — blogs, case studies, whitepapers, and HTML email campaigns; conducted content audits for banking and insurance clients, resulting in 2x web traffic growth.

AI Tools & Automation

- Built and deployed an AI-powered content QC tool (Claude API, Cursor, GitHub, Railway) — ingests briefs and reference documents, reviews pre-handoff content, and returns structured feedback with replacement suggestions; adopted by 19 team members, reducing revision rounds by 40–50%.
- Designed prompt systems and context engineering frameworks for LLM-based content workflows; contributed to LLM training through structured content creation across regulated industry verticals; integrated AI tooling into daily research, drafting, and QC workflows across client accounts.

Content Writer & UI/UX Copywriter | Matrix Tech Solutions Pvt Ltd *Sep 2019 – Jan 2022 · Kolkata, India*

- Delivered UI/UX copy and website content for Jupiter Money, Keka HR, and Paperflite across concurrent accounts — covering interface copy, product pages, and client-facing communications.
- Produced whitepapers, eBooks, and case studies for US, UK, and Middle East-based software clients on a weekly cadence — research-intensive, deadline-disciplined delivery across concurrent B2B accounts.
- Maintained brand voice and editorial quality across fintech, SaaS, and HR tech products through structured review and delivery workflows.

Freelance Copywriter | Self-Employed *2016 – 2019 · Remote*

- Produced website copy, brochures, and promotional materials for SME clients; scripted YouTube podcasts for content creators across multiple domains.

PROJECTS

Content Pipeline Tracker — *React · Node.js · PostgreSQL · JWT · Prisma · Vercel · GitHub*

- Built a content operations dashboard with role-based workflows, project tracking, reporting, and administrative oversight to streamline content delivery and visibility across teams.

AI-Powered Content QC Tool — *Claude API · Cursor · GitHub · Railway*

- Ingests client briefs and reference documents, reviews pre-handoff content against them, and returns structured feedback with replacement suggestions. Adopted by 19 team members at LexiConn; reduced revision rounds by 40–50%.
