SUMMARY

Content Strategist with 6+ years driving organic growth for B2B SaaS, fintech, and enterprise tech through end-to-end content programs — from search-intent planning and editorial governance through publishing and performance optimization. Built AI-assisted editorial workflows adopted by 19 team members, cutting revision cycles by 40–50%. Led technical content initiatives that now rank in Google AI Overviews and drive 800+ monthly sessions.

EXPERIENCE

LexiConn Content Services Pvt Ltd

Role: Content Associate · Acting Team Lead & Content Strategist — Mumbai (Remote), India

Mar 2023 – Sep 2026

- Planned, created, and optimized blog and landing page content across 15+ concurrent B2B SaaS and fintech accounts—from search-intent briefs and customer-journey mapping through publishing and performance reporting (rankings, organic traffic, conversion rate).
- Shipped 800+ SEO articles, whitepapers, and landing pages across SaaS, fintech, BFSI, payments, and enterprise tech over 3.5 years.
- Built an AI-assisted editorial QC workflow (Qwen 3.5 via Ollama) that audits drafts against briefs, SEO, and brand rules — adopted by 19 team members, cut revision rounds by 40–50%, and productized internally as Auditor Pro.
- Restructured content for search intent and answer engines (GEO, AEO, FAQ architecture, E-E-A-T), driving 2× organic traffic growth on banking and insurance initiatives and 6 page-one keyword rankings.
- Review, fact-check, and refine AI-generated content pre-publish; improved prompts and QA gates to maintain accuracy and brand voice while raising output per writer by 50%.
- Wrote developer-facing technical content for Worldline on payment-gateway API integration — REST APIs, SDK selection, auth, sandbox testing, webhooks, tokenization, error handling — now cited in Google AI Overview for “payment gateway API guide India,” driving 800–1,000 monthly organic sessions.
- Delivered 2,000–4,700-word research reports and whitepapers for Kantar and Taggd on financial behavior, investor education, and securities awareness.
- Served as Acting Team Lead (Feb–Aug 2025), coordinating 3 writers and 1 graphic designer across brief allocation, draft review, feedback cycles, and client handoff — maintained 100% on-time delivery across 7 months.
- Created product marketing content for a four-product AI suite (Card2Connect, Auditor Pro, BrandGuard AI, AutoPlant AI) — 55 launch assets across positioning, site copy, and collateral,

contributing to 250+ demo requests.

Matrix Tech Solutions Pvt Ltd

Role: Content Writer & UI/UX Copywriter – Kolkata, India

Sep 2019 – Jan 2022

- Wrote website copy and UI/UX pages for B2B and D2C SaaS clients (Jupiter Money, Keka HR, Paperflite), converting product and technical details into customer journeys and interface microcopy.
- Wrote UX microcopy for enterprise products, with 60–70% of Figma-based recommendations implemented.
- Produced ~100 whitepapers, eBooks, and case studies weekly over 28 months for US, UK, and Middle East software and SaaS clients.
- Delivered 300+ enterprise communications for global technology and services clients under concurrent deadlines.
